The Nujol Treatment as Sickness Prevention

Science, with anti-toxins, serums, and modern sanitation, has done much to prevent dangerous diseases; but the diseases so checked are comparatively few. On the other hand, 90% of all diseases have one common origin—constipation.

The dangers of constipation are so far-reaching, because the blood receives poisons from an infected mass within, and carries them directly to every organ of the body; and because constipation itself keeps the system in a run-down condition so that any infectious germ from without easily gains foothold.

Keep clear of constipation and you guard against serious diseases. Nujol will remove constipation and prevent its return.

The action of Nujol is entirely different from that of any other constipation remedy. It is not a drug. Nujol cleans the food waste and encourages the intestinal muscles to act naturally.

Nujol helps Nature establish easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world. Get a bottle from your druggist today.

National Legislation of the Meat Packing Industry

1. Will not increase the amount of meat you can buy for a dollar.
2. Will not raise more animals.
3. Will not produce more meat.
4. Will not stop fluctuations in live-stock receipts or prices.
5. Will not increase the output of the packing houses.
6. Will not prevent strikes.
7. Will not reduce transportation charges.
8. Will not reduce the retailer's cost of doing business.
9. Will not increase the demand for the cheaper cuts of meat.
10. Will not lessen the consumers' demand for expensive delivery and credit service.
11. Can not at the same time raise prices paid farmers for live stock, and lower prices paid by consumers for meat.

But the slowing up of efficiency due to cumbersome governmental routine will have the effect of increasing the manufacturing charges between the cost of live stock and the cost of meats, thus forcing lower live-stock prices or higher meat prices.

The packing industry as now conducted, is characterized by keen competition, highest efficiency, and unusually low profits.

The Prince of Wales at Winnipeg.

visioning the occupied areas through American relief agencies, and was required to make five trips to Berlin to explain the work. His family remained in Lille throughout the occupation.

EMPLOYERS OPPOSE TEUTONS.

Opposition to the admission of German and Austrian delegates was expressed today by representatives of employers in a meeting of the capital group.

It generally was agreed that the former enemy countries should be admitted after the conference, but the debate centered upon the time of their admission.

Leon Jouhaux, secretary-general of the French Federation of Labor, was chosen as the workers' candidate for vice-president of the conference.

Demand that women be represented equally with men in all future international labor conferences called under the Treaty of Versailles was made today at the international congress of working women.

In the first formal motion to be presented to the congress, Mrs. Jeanne Beyer, a French delegate and a technical adviser to the present international labor conference, asked that in the next world labor meeting under the treaty, six delegates be sent by each nation, two to represent employers, two to act for employees, and two from the government; and that one of the two delegates in each group be a woman.

The motion was adopted by a large majority.

Secretary of War Baker addressed the congress today, and a series of reports were made by delegates from Sweden, Norway, Italy, France and Belgium on the status of eight-hour-day legislation in their countries.

J. Oudegeest of Holland, Sir Malcolm Deane of Belgium, were appointed on the Credentials Committee. To all the delegates for separate meetings of the delegates, the conference decided not to reconvene until 2:30 o'clock tomorrow afternoon.

FRANCE PACES STRIKE.

(BY CABLE AND ASSOCIATED PRESS.)

PARIS, Oct. 30.—The absence from Paris of Leon Jouhaux, president of the General Federation of Labor, who is on his way to the United States to attend the international labor conference, has caused the extreme in the Federation of Labor to make an attempt to organize a general strike for November 7.

Circulars now are being sent to unions throughout France asking them to stand ready to declare a strike against the intervention in Russia and against a commission to examine the proposition.

Keen opposition to M. Jouhaux's mission was developed during the Washington conference, and the mission's departure.

PAY TO ROADS BACK TO PRIVATE CONTROL.

STANDARD RETURN MAY BE MADE BY GOVERNMENT THE FIRST SIX MONTHS.

(BY A. P. DAY WIRE.)

WASHINGTON, Oct. 30.—Continuation of the payment of the government standard return to railroads for six months after the end of Federal control is provided by the House Interstate Commerce subcommittee draft of legislation for solving the railroad problem after termination of operation of the lines is resumed.

Provision also is made for government loans, such advances to be approved by the Interstate Commerce Commission with the carriers before being required to give security. Likewise, provision is made for the funding of debts owned by the companies to the government which were contracted during the period of government operation.

Work on the legislation was completed last night by the subcommittee, but the proposed measure was not made public pending decision of the full committee, which will meet late today to begin the final framing of the bill.

HOUSE AND SENATE DIFFER.

There are said to be wide differences between the House draft and the Senate bill, committee members admitting their plans are not identical. A provision prohibiting strikes, or one creating a transportation board to determine the railroad needs from the point of the public service.

Chairman Eech, who headed the subcommittee, said he would have the final bill before the House for consideration the latter part of next week, and that he would "well pleased" to pass it.

He indicated that plans for adjournment of the public November 19 would be upset to complete the rail bill.

NO NEW RATE MAKING.

No new rule of rate making is laid down by the House subcommittee draft, which leaves practically unchanged authority of the Interstate Commerce Commission to fix a "just and reasonable" rates.

Among other important changes proposed is the placing of coastwise and inland water carriers, independent of their joint use with steam lines, under control of the commission, which also would have jurisdiction over port-to-port rates.

Before the bill finally is reported to the House a labor section substantially the same as that in the Senate bill, providing fine and imprisonment for an agreement among any persons to stop interstate traffic, will be considered by the committee.

INDIANS ARRAIGNED FOR TRIBAL CUSTOM.

(BY A. P. NIGHT WIRE.)

ALBUQUERQUE (N. M.) Oct. 29.—The Governor of the Santa Domingo Indians from a reservation about forty miles north of here, and seven members of his council were arraigned in United States District Court here today on charges of assault with a dangerous weapon upon a woman of the pueblo of Santa Clara.

It is alleged the woman, who fell in love with a member of the Santa Domingo tribe and married him, became suspicious of her husband and decided to return to her own people. The Indian council ordered her not to return. She refused, and it is alleged she was seized and bound on the neck and other parts of the body with a knife.

Are you going to build? If so, don't miss The Times' "Own Home" page published every Saturday.—(Advertisement.)

His Royal Highness Albert Visits the President.

Albert Visits the President.

Trinity College, which is so closely connected with Belgium, and Prince Leopold were entertained at dinner tonight by Baron de Cartier de Marchienne, the ambassador to the United States, and Baroness de Cartier. The guests included the British and French Ambassadors.

The royal special train, which has carried the Belgian party more than 900 miles, will complete its service at Old Point Comfort at 9 o'clock tomorrow. It will be accompanied for several hours at some quiet spot so the passengers will be refreshed for their last hours in the country.

Before embarking on the George Washington, the Belgians will witness the flooding of two dry dock yards at the Norfolk Navy Yard. A destroyer will carry the party to Norfolk.

INFLUENZA STATISTICS.

Wage-earners Reported to Have Been Hard Hit by Malady.

(SPECIAL CORRESPONDENCE.)

NEW ORLEANS, Oct. 30.—In a paper read here today before the vital statistics section of the American Public Health Association, Dr. Frankel and Dublin of the Metropolitan Life Insurance Company, New York City, said that the influenza epidemic of last fall and winter caused the highest mortality among the wage workers of the country and the least among those of higher economic strata. They estimated the highest death toll at practically 1 per cent. of the total population, or about 15,000,000 persons, died as a result of the epidemic. The victims were, for the most part, persons in young adult life, the fathers and mothers of the present generation. No one of the present generation will be on the future population of the world, in the number of children who will be born and in the reduction of the number of effective workers on the farm, in the factory and in the office. They said that the epidemic was more disastrous in causing loss of life than the great war.

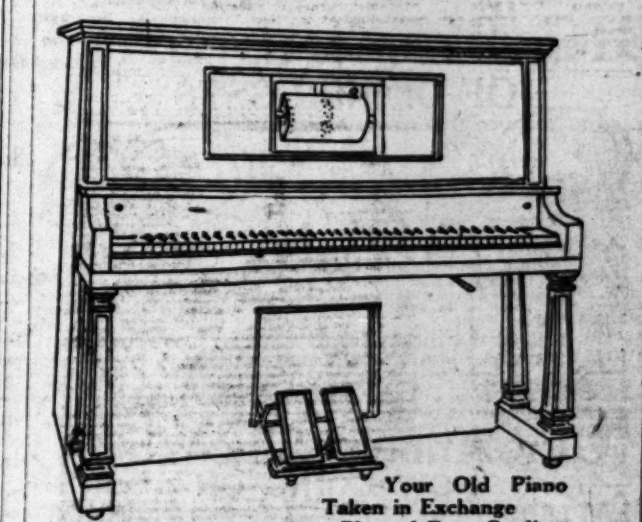

In a group of thirty-one life insurance companies between October, 1918, and the end of March, 1919, more than \$120,000,000 was paid in claims paid due to influenza and pneumonia. These represent nearly 45 per cent. of the total claims paid in this period. The Metropolitan Life Insurance Company alone paid more than \$20,000,000 in claims for nearly \$28,000,000 because of influenza or pneumonia deaths. Including the disbursements of the War Risk Insurance Bureau, the estimated total loss to American life insurance resulting from the epidemic was well above \$250,000,000.

According to the statistics quoted by the speakers, this epidemic seemed to be different in many essential respects from other influenza on record. Most of the deaths occurred among persons between the ages of 15 and 40 years, with a maximum incidence at about age 20; secondly, the white race in the United States seemed to be affected much more severely than the colored; third, the epidemic was much more severe in character in the coast cities of the United States, especially along the Atlantic seaboard, and became much more destructive effect among the inland cities. The epidemic was responsible, also, for an increase of 16 per cent. in the death rate of tuberculosis, an increase of 300 per cent. for diseases connected with childbirth and 41 per cent. for heart diseases.

The writers concluded that from health statistics available to them, there did not seem to be any present focus of influenza in the United States and Canada, nor did they view with alarm the immediate prospect of the health situation. There did not seem to be any indications that the epidemic would return to the United States with the same disastrous forces of the invasion of last fall. It was urged that persons who had been attacked by influenza or pneumonia during the first invasion consult frequently with their family physicians in order that any disorders of the heart, kidneys or lungs following influenza might be corrected in due time.

SCHOOLS FREE OF RADICALS.

No "Reds" Among Teachers at Crown City.

Judge Pleads Guilty to Charge of Matrimony.

Norwegian Merchant Buys California Fruit.

PASADENA, Oct. 30.—There are no red radicals in the public schools of Pasadena, declared Superintendent J. F. West today. The superintendent made the statement when commenting on the dispatches from Sacramento stating that State Superintendent W. H. C. Wood had started an investigation of alleged circulation of radical literature in some of the high schools of the State.

"If any teachers of Bolshevism or I.W.O. teaching are found in the Pasadena schools I shall recommend to the Board of Education their immediate dismissal," said Superintendent West, "and I believe the board will back me up. But a careful investigation of our schools has failed to show any radical teachers or the circulation of radical literature."

PLEADS GUILTY OF WEDDING. The marriage of Judge Ben Strang, Justice of the Peace of Pasadena, and Mrs. Lucille M. Sloan of Los Angeles, daughter of Mr. and Mrs. William Mulholland of that city, was announced here today. The wedding, it was learned, took place Tuesday in Los Angeles, at the home of Mrs. Wido Fallon.

When the news became known here, Judge Raymond G. Thompson, who presides over the Second Justice Court in Pasadena, issued a bench warrant for Judge Strang, summoning him to answer a charge of matrimony. Many of the lawyers of the city were present when Judge Strang appeared. He wore a broad grin, and pleaded "guilty."

Judge and Mrs. Strang have taken a house on Linda Vista avenue, in the Arroyo Seco.

BUYING CALIFORNIA FRUIT. Alfred Loken, head of the big Norwegian importing firm of Loken & Co., with headquarters in Christiania, is enjoying a visit in Pasadena. He and Mrs. Loken are at a local hotel. Mr. Loken's house is a big buyer of American grain, sugar, and other products.

"California fruits, dried fruits, form an important part of the food supply of Norway," said Mr. Loken today. "We annually buy many thousands of dollars worth of it. We also buy California grain and flour. I wish we could buy Southern California oranges. Ours come from Southern Europe."

URGE LEAGUE ADOPTION. The Pasadena Chamber of Commerce has adopted resolutions urging that the Senate speedily ratify the League of Nations covenant as proposed, believing that disposition of the question will allay the unrest spirit in the country. Copies of the resolutions have been forwarded to Senator Hiram Johnson.

Visit our Bargain Basement Store. Used furniture taken in exchange on anything in our ten-floor stock. Pasadena Furniture Co.—(Advertisement.)

INGLEWOOD CELEBRATES. INGLEWOOD, Oct. 30.—The Chamber of Commerce has planned for a Mardi Gras and fun festival for Friday evening. Games, contests and all manner of fun-making devices are on the programme. Splendid music will be furnished for dancing. The whole affair is to take place in the Chamber of Commerce Hall.

HOW TO REMOVE CORNS AT HOME

You Can Remove Them in Your Own Home Without Pain or Danger.

Many people knowing it is both painful and dangerous to cut a corn or callous, continue to suffer from them not knowing how easy it is to get rid of them.

You can remove them in the privacy of your own home without pain or danger. Simply get a small bottle of Cactus Corn Compound, at any drug store, and paint the corn with it. The corn will come off without any pain, and no sore feet to interfere with your work.

A bottle of Cactus Compound costs only a few cents and is enough to take off dozens of corns. Full directions come with each bottle. Any druggist will refund your money if you are not satisfied.—(Advertisement.)

EXCEPTIONAL CROP. SANTA BARBARA, Oct. 30.—The walnut growers of Santa Barbara, Goleta, and Naples, are beginning to receive their share of \$100,000 a day that is coming into the treasury of the California Walnut Growers' Association at Los Angeles. The Santa Barbara Association is paying 20 cents a pound on No. 1 nuts for which the selling price is 34 cents. Payment on other grades will be made later. The crop this year has exceeded the most sanguine expectations, not having evidence of blight or destruction by the walnut worm being discovered in any grove in the county.

POMONA PEOPLE PROTEST. VOTERS FAVOR SCHOOL BONDS.

Residents of City Ask Officials to Curb Activities of Hunners.

Long Beach to Spend Nearly Half a Million.

Plan Elaborate Celebration of Armistice Day.

Programme in Charge of ex-Service Men.

POMONA, Oct. 30.—Wouldn't it be a bit disconcerting to have a rifle bullet sink itself into the gate post against which you were leaning, or to have the leaden pellets rattle like hail on the tin roof, or to have the chickens mistaken for tame quail or to be "assaulted" when politely asking the neighbors to shoot in some other direction, or to be told that this was a free country and they would shoot where they pleased and to labor under the uncertainty of just what minute one might intercept some ill-aimed shot.

These are some of the items contained in a protest presented to the City Council today by residents along the San Joaquin River in the northwestern part of the city.

POMONA OFFICIALS TURN DOWN BIDS. PROPOSITION TO PAVE STREET SAID TO CALL FOR TOO MUCH MONEY.

POMONA, Oct. 29.—Bent upon taking a reef in the tendency of upward prices, Mayor W. A. Vandegrift and members of the City Council, at a meeting today, voted to reject all bids received for paving the Philadelphia avenue to the grounds that the figures quoted in these bids were too high and not in proportion with estimates.

Three bids for the work were opened a week ago. Two of them were only a fraction of a cent apart. These bids were from Louis Ferrell, 195 cents per square foot; Fleming Construction Company, 179 cents per square foot and H. W. Hanawalt & La Verne, at 177 cents per square foot. At that time it was decided to defer action for one week pending an investigation of the figures. At the meeting today City Clerk Trotter was instructed to return the certified checks which accompanied the bids and to ready use for new figures.

Continuing the preliminary steps in the work of calling a special bond election for \$300,000, to be used for the construction of about twelve miles of new paving, a fire hall and jail and other municipal improvements, the Council placed upon its final passage an ordinance calling for the election. The ordinance was passed unanimously and there should be no hitch in the proceeding now which would alter the intentions to call the election, December 11.

ENDS CHARMED LIFE. Mexican Lad Killed After Two Narrow Escapes.

HOLTVILLE, Oct. 30.—Julio Goas, 6-year-old son of Hino Goas, was killed this morning on the highway about one mile south of this city, by an automobile driven by Dora Shrod. The boy was on his way to school, accompanied by a sister, 8 years of age when he met his death.

A coroner's jury impeached by Dr. Peterson after hearing the details of the accident brought in a verdict that the child came to his death through an "avoidable accident."

The lad had lived an exciting life during his few short years. Twice before he faced death and narrowly escaped, once, in El Paso, a passing automobile became unmanageable and ran into him and narrowly escaped. A few months ago he was present when a rifle bullet passed through his shirt and inflicted a slight wound just above the heart.

According to witnesses yesterday he was struck before he knew the car was coming.

MAKE WITCH'S DEN. Seal Beach Prepares to Entertain on Halloween.

SEAL BEACH, Oct. 30.—All this week an army of decorators have been transforming the interior of the Seal Beach Dancing Pavilion into a witch's den, getting it ready for the Chamber of Commerce dance Friday night. A weird, spooky effect has been produced and when colored lights are turned on, the scene is indeed startling.

All the Chamber of Commerce committees have been working hard for several weeks to make the dance a success. Many unique and novel features have been planned for the entertainment of the guests who are expected to come from all parts of Southern California.

LEAVE ROCK CITY. The Chamber of Commerce has just reorganized for the work of the coming year and has chosen the following officers: President, J. Hartley Taylor; vice-presidents, P. Schumacher, Godfrey Edwards, Jesse J. Taylor; executive committee, J. C. Clausen, J. T. Bailey, C. W. Young; secretary, E. L. McNitt; treasurer, Fred E. Biles.

At the next meeting of the organization, early in November, the question of the women membership will be the main topic to be considered.

SPEED SAVES LIFE. SANTA BARBARA, Oct. 29.—E. F. Paramore of Pasadena and Montecito won in a race with death this morning, having been in an automobile accident on Ortega Hill, where his machine turned turtle and an artery in his arm was slashed open by a fragment of glass. A handkerchief was wrapped around the wound and he was raced in another machine to a surgeon in town, the blood spurting from the wound with each heart pulsation. He will live.

TRAINS DETOUR. SANTA BARBARA, Oct. 29.—Four hundred Santa Fe freight cars daily and all Southern Pacific freight for the north are being detoured from the valley to the coast division on account of the recent (unnecessary) Word received from the U.S. Coast Guard, that the tunnel on the Tehachepi would not be open for traffic until November 1, at the earliest, the slide being more serious than at first reported.

POMONA NOTES.

POMONA, Oct. 29.—Mrs. A. W. Pooley of this city has every excuse to remark to friends today that the earth is rather small after all. She had just met an old friend. The old friend was one of the first automobile manufacturers in the world. That was back in 1890. At that time Mrs. Pooley resided in Richmond, Va. Her family was the first one in the place to have an automobile and Mrs. Pooley was the first woman in Richmond to drive a machine. Imagine her astonishment today when she walked into a local garage and came face to face with the same machine she had driven nineteen years ago. It had been brought out here from Los Angeles to be used in a parade.

Word was received here today of the serious illness of W. B. Todd, a well-known Pomona business man. Mr. Todd was on a vacation trip which he was spending in his old home in Ohio. His large circle of friends here are greatly concerned over his reported condition.

A total of 175 delegates including forty members of the Episcopal clergy, gathered here today to hear an explanation of the new nationwide campaign to be inaugurated by the church. Enthusiasm was manifested in the proposed campaign and Pomona promised to do her share.

Attention was again forcefully called to the inadequate housing facilities in Pomona today when a large number of people connected with a carnival company were forced to sit in cold cars all night because they were unable to find a room in any of the local hotels or rooming houses. All were filled.

MAKE BIG CONTRACT. Orange Distributors Arrange for Box Material.

REDLANDS, Oct. 26.—The directors of the Mutual Orange Distributors, the second largest shippers of citrus fruits in the State, at a meeting in the general offices here, ratified a contract for box shooks which has been under consideration for some time. By the contract the fifty packing-houses of the association are assured of an adequate supply of shooks for a long period of years.

The long-term contract will also effect a great saving for the house of the organization, showing a saving of more than \$100,000 each year on the present market prices. Box shooks are advancing rapidly.

J. A. Stewart, traffic manager of the distributors, was chosen as assistant, sales manager, to take the place made vacant by the resignation of Wilfred Tilton. Mr. Stewart will continue to supervise the traffic department.

KIDDEES CELEBRATE. Youngsters Furnish Programme at Soldiers' Home.

SOLDIERS' HOME, Oct. 30.—Celebration of Halloween by children of families in the home was a source of keen enjoyment no less to the kiddies taking part than to the veteran audience and their friends who crowded Memorial Hall last evening. The feature of the evening was a sketch entitled "Witches and Bogle Man," under the direction of its author, Mrs. C. K. Cook, of Assistant-Surgeon Cook. The Home orchestra band leader William Ostermann, accompanied the kiddies' voices in their singing, and rendered a concert of classic numbers, among which were overture, "Masquerade," by August selections from the "Chimes of Normandy," by Planquette; Russian ballet music by Franke and several other selections.

SANTA BARBARA TO BUILD BREAKWATER.

SANTA BARBARA, Oct. 30.—Five hundred thousand dollars will be raised in this section to build the first unit of a proposed breakwater, planned by Engineer James R. Chapman, the engineer who built the London tubes. Mr. Chapman now resides in Santa Barbara, and has become president of the City Water Commission to see to completion of the city's \$2,000,000 water system, which will be finished next month. He has devoted two years to the study of a breakwater plan and tonight made his report to the Municipal Breakwater Committee, which includes three members each from the Commercial Club, Chamber of Commerce and Rotary Club, besides the City Council. The first unit will be built to protect pleasure craft from the ravages of southeast storms. Later the breakwater will be extended further to afford protection for the heavier vessels afloat.

ELECT OFFICERS. EAGLE ROCK CITY, Oct. 30.—At the election of officers of the Chamber of Commerce, Mr. J. Hartley Taylor was elected president; Messrs. Percy S. Schumacher, Godfrey Edwards and Jesse H. Taylor, vice-presidents; R. L. McNitt, secretary; Fred E. Biles, treasurer; Messrs. J. C. Clausen, J. T. Bailey and C. W. Young, executive committee. They will hold their annual banquet early in November. The question of admitting women to membership will be a special order of business at their November meeting.

BIG WALNUT CROP. HEMET, Oct. 29.—This has proved a very successful season for the Hemet walnut growers. Conservative estimates place the total yield of the walnut crop here this season as 175 tons, which, according to the figures of the local Walnut Growers' Association, will yield to the grower more than \$600 per ton, making the aggregate more than \$100,000. The about one-half of the area planted to walnuts, and within five years the crop will total 1000 tons.

FOR THE LEAGUE. RIVERSIDE, Oct. 30.—Resolutions indorsing the League of Nations covenant were adopted by a vote of 18 to 4 at yesterday's meeting of the Wednesday Morning Club. The club also ordered that a notice of 18 to 4 at yesterday's meeting be sent to Senator Hiram Johnson, asking that he withdraw his opposition to the League. Mr. Earl McDonald and Mrs. Catherine Earl were hostesses to the club members, entertaining them at the Victoria Club.

With The Autopiano in Your Home

Piano playing can be added immediately to your accomplishments—your pleasures multiplied and the cost divided so as to subtract little from the amount you ordinarily spend to obtain diversion that does not bring you nearly as much satisfaction. All this can be accomplished by our sending to your home

The Autopiano

the world's fastest selling and most popular Player Piano.

NOW A FARMER. Former Railroad President Says Income Officials Took too Much.

Stuyvesant Fish, ex-president of the Illinois Central Railroad, has brought suit to have himself legally adjudged a farmer. By so doing he may recover from the Federal income tax officials \$1600 which he contends was collected in the mistaken belief that he was not a tiler of the soil.

On his nearly 2000 acres near Gardin, in Putnam county, New York, Mr. Fisher, according to his bill of complaint filed ten days ago in the United States District Court at Utica, raises corn chiefly, although he also has in mind a 1250-acre stock farm project. According to the complaint, drawn up by Taylor, Jackson, Brophy and Nash, 40 Pine street, Mr. Fish

hasn't been a shining success as a farmer—as yet—and his action is to get back the tax on money which he put into the farm in an effort to make it yield something besides debts.—[New York Times.]

Freight. "All I did was to speak of the boat and its precious freight. I don't see why she got mad."

"Freight, eh? It's risky term, lad. Some girls are very sensitive about talking on weight."—[Louisville Courier-Journal.]

Another Slam. "That was a wise man who said a model is a small imitation of the real thing."

"What of it?" "I see Congress is going to pass more laws."—[Louisville Courier-Journal.]

Allies Give Details of Vladivostok Incident.

Modify Order for Evacuation
of Russian City.Admiral Took Firm Stand
Against Ultimatum.

(BY CHASE AND ASSOCIATED PRESS.)

TOKIO, Oct. 31.—Documents published at Tokyo giving the details of the recent misunderstanding between Russian and Allied troops at Vladivostok show that the Allied command sent an ultimatum to Gen. Rozanoff, the Russian commander, pressuring him to evacuate the city. The Russian press bureau issued a statement, saying that on September 26 the Allied command in the Far East handed Gen. Rozanoff an ultimatum to evacuate all Russian troops from the fortress of Vladivostok not later than noon of September 29. The ultimatum said that in case of non-fulfillment armed forces would be used. In reply to this ultimatum, Admiral Kolchak, Russian commander of the Pacific, issued a statement, saying that he would not evacuate the troops from Vladivostok, to take all measures for protecting the troops, and to communicate to the Allied command that Vladivostok is a Russian fortress, and that the Russian troops of the garrison would fulfill only his, the supreme ruler's order.

In other circles, it is declared that some weeks ago, following the appearance of Gen. Gaidar in Vladivostok, came a movement among Russian Liberals for a counter-revolution, and efforts to persuade Gen. Gaidar to head the movement were made. In the meantime, orders came from Omsk for Gen. Gaidar to take off his uniform as a Russian general and leave Russia immediately, these orders being backed by the appearance at Vladivostok of Cossack chiefs, Semenov and Kalmikov, whose troops were trained upon the train of Gen. Gaidar. The Allied authorities interfered, and ordered the armored trains out of the city, stating that as Gaidar is a Cossack, and not a Russian subject, he could not be deported.

The counter-revolutionary movement appeared to grow, and as an effect the Russian garrison was largely reinforced, the new troops being Cossacks.

OFFICIAL STATEMENT.
The trouble that developed is set forth in an official statement, which appeared in the Vladivostok papers September 30, as "a statement from the commandant of the Allied troops in Vladivostok." This, as translated, was:

"Recently Vladivostok has been forced to witness the arrival of Allied as well as of Russian military men. The representatives of the Allied forces have discussed this question in order to locate the cause of this consideration, and have come to the conclusion that the main cause of these and occurrences lies in the new Russian detachments brought here by the Russian government. The presence of these troops has brought anxiety to the people of Vladivostok.

"The Allies, many months ago, took upon themselves the responsibility of preventing in Vladivostok and its vicinity a disturbance, which responsibility has been acknowledged from the time of last year's demonstration by Gen. Pinkhankoff. At their conference, September 17, the Allies determined to write to the chief of the maritime military district, Gen. Rozanoff, asking him to withdraw all the above-mentioned detachments in order to ensure the safety and tranquility of the city, which request was agreed to by Gen. Rozanoff.

ULTIMATUM FOLLOWS.
"As the promised withdrawal of detachments had not taken place up to the 26th, a second letter was sent to Gen. Rozanoff, and in view of several new murders, the Allied representatives, after their second conference, which took place on the 26th, sent to Gen. Rozanoff a second letter, containing an ultimatum, requesting him to withdraw all the troops from the fortress of Vladivostok not later than noon of September 29. Otherwise, the ultimatum stated, the Allies would be compelled to take representative measures and prohibit further movements of these troops, except with the permission of the chief of the Allied forces in the Far East.

"Gen. Rozanoff said he would issue orders to his chief-of-staff to carry out the terms of the Allied ultimatum, but the following day, September 27, presented a second ultimatum, stating that action beyond his authority, he had referred to the supreme ruler, Admiral Kolchak, advised him in no event to withdraw the Russian troops.

"Thereupon, the Allied military and diplomatic representatives at a special conference, held September 29, assuming that Admiral Kolchak had the reasons for the Allied ultimatum explained to him, decided to send direct to the admiral an explanation of the existing conditions, in order to prevent possible action.

"LIEUT.-COL. WOUCHTERLE, "Commandant of the Allied troops, troops."

ROZANOFF'S EXPLANATION.
Gen. Rozanoff subsequently gave out a statement giving his side of the affair. He said he brought before the Allied command the importance of publishing notification in order to prevent possible action. He said he brought before the Allied command the importance of publishing notification in order to prevent possible action.

"Gen. Gaidar, the Russian commander, said he would issue orders to his chief-of-staff to carry out the terms of the Allied ultimatum, but the following day, September 27, presented a second ultimatum, stating that action beyond his authority, he had referred to the supreme ruler, Admiral Kolchak, advised him in no event to withdraw the Russian troops.

LLOYD GEORGE
AGAIN WINNER.Given Vote of Confidence by
Huge Majority.Government's Financial Reso-
lution is Upheld.Bonar Law Says Russian Debt
not Yet Hopeless.

(BY CHASE AND ASSOCIATED PRESS.)

LONDON, Oct. 30.—The government was given a vote of confidence in the House of Commons tonight on its financial policy, an overwhelming majority of 355.

An amendment to the government financial resolution moved by John R. Clynes, laborite, and former food controller, was rejected 405 to 50 and the government resolution was adopted.

Disposed of quickly. Although the minister's speeches had been devoted wholly to defending the government's financial policy, the House of Commons, however, decided to dispose of the matter quickly and when the government motion was put from the chair, although the laborite challenged division, they did not persist, and the motion was adopted without a division.

Nothing was indicated during the course of the debate concerning the nature of the proposals, however, mentioned in the government motion and the ministerial speeches to show that the government is relying on the growth of the country's industries and commerce as the chief source of revenue.

After the Prime Minister had spoken, several members joined in the debate. Mr. Bonar Law, who was in the House, described the government's financial policy as "a very good one."

Mr. Bonar Law agreed with the Chancellor of the Exchequer, Mr. Lloyd George, who said that the government's financial policy was "a very good one."

PAN-MOTOR HEAD'S
PAST INVESTIGATED.TESTIMONY IN MAIL FRAUD
HEARING VARIES AS TO PRO-
MOTOR'S ACTIVITIES.

(A. P. NIGHT WIRE.)

CHICAGO, Oct. 30.—An artist for a Chicago printing and lithographing company produced three automobile drawings used to advertise the Pan-Motor, according to testimony in the Federal Judge's court, where promoters of the Pan-Motor Company are on trial for alleged misuse of the mails.

Replying to the story which R. C. Pandolfo gave him, together with his imagination, in drawing the pictures of the Pan-Motor, the witness said:

"I am not a sound business man, and as being in a class by himself as an organizer," Pandolfo said.

William G. Kuby, a Chicago postal employee, told of receiving Pandolfo's application for a postoffice box. Asked to give references, Pandolfo gave, among others, the First National Bank of Albuquerque, N. M.

"My knowledge of Pandolfo is only general, and from what I know of him, I am unwilling to endorse him," the president of the bank replied, according to a letter read in court by counsel for the prosecution.

Witnesses who had been buyers of stock agreed that they had understood that the par value of the stock was \$100, but that they were told by Pandolfo that it was \$50.

After the Prime Minister had spoken, several members joined in the debate. Mr. Bonar Law, who was in the House, described the government's financial policy as "a very good one."

LABOR CLAUSE
UNDER ATTACK.

MIDDLE WEST NEWS IN BRIEF.

(EXCLUSIVE DISPATCH.)

DES MOINES, Oct. 30.—Dave McDermott, Anita, Iowa, farmer who has been sued for divorce and \$15,000 by his California wife, filed a motion asking the court to compel her to state specifically in her divorce petition she left Des Moines and her whereabouts in being kept secret by her attorney.

Washington, Oct. 30.—Formally opening the fight on the labor section of the peace treaty, Senator La Follette, Republican, Wisconsin, moved in the Senate late today to strike out the entire section which provides for establishment of an international labor organization.

Debate on the motion, which may last for several days, was started by Senator Thomas, Colorado, who attacked the labor clause in a speech.

NOT IN A DRUG STORE

If people always knew beforehand just what the doctor's prescription would be, most of the time it would be quite unnecessary to consult a doctor, observes the Philadelphia Ledger.

A patient with a vague and indefinite complaint sought out the late Dr. S. Weir Mitchell and elaborately described what she thought was the symptoms of imminent collapse. The famous physician heard her out with courteous gravity, wrote a line or two on a bit of paper and then said:

THE BEST Why Use Any Other?

High score received by the Sanitary Gold Seal Dairy Company

DIPLOMA

U. S. Dept. of Agriculture—Dairy Division

SCORE CARD FOR MILK

NATIONAL DAIRY SHOW, 1919, CHICAGO, ILL.

Best and Cheapest Milk In The United States

Owing to the raise in price of milk by the producers, caused by the serious shortage and continued advance in price of feed, together with the shortage of and high wages paid farm help, compels us to make an advance in the retail price of milk.

Therefore, commencing November 1st, 1919, and until further notice, the following prices will be effective:

1 Pint Milk\$0.09
1 Quart Milk16

OIL PRICE NOT FIXED BY STATE

Erroneous Belief Causes a Flurry Among Producers.

Operators and Refiners to Maintain Price Level.

Association is Formed in the Burburnett District.

[SPECIAL CORRESPONDENCE]

AUSTIN (Tex.) Oct. 24.—An impression that seemed to exist in the minds of some of the independent oil producers of the Burburnett field that the State Railroad Commission was authorized under the law to regulate the price of crude petroleum has been dispelled by a statement by Clarence Gilmore, a member of the Railroad Commission, that that body has nothing in the world to do with fixing the price of the product. The authority of the Railroad Commission extends only to the putting into effect and enforcement of rules against the wasting of oil and the operation of pipe lines.

NOVELTIES, IDEAS AND PRACTICAL SUGGESTIONS.

By Olive Gray.

Up-to-date:
A touch of color, replacing the all-black trimmings in millinery.
Blouses for wear with suits, toning in color with the material of the suits, if not exactly matching.
Gay little sweaters of knitted or crocheted wool, the skirts flaring from the normal waist line, and sleeves tightly fitting to just below the elbow, where they also flare.
Collars are rounded and fluted, ruffle-wise. Of course these warm, cuddly garments are slip-ons.
Broadened velvet or mohair as upholstery materials for overstuffed furniture now so popular for the living-room.
Some of the colors and combinations of color are very lovely.

Lower Your Clothes Cost by Buying Right

When you spend your money for a suit or overcoat—get the right kind—the kind that will last—will stay new will hold the shape, the kind of clothes that are made of all wool fabrics.

Hart Schaffner & Marx are that kind—they'll cut your clothing costs because they're made to stand up under hard wear—to keep "looking better longer."

The New Fall Styles

In Suits—In Overcoats—

are lively and snappy. Double breasteds are being worn, some of them with belts. They are different from the old kind—they're form-fitting and have no padding or heavy linings. The single breasteds have one, two or three buttons, with or without belts. They're very stylish and worth more than they're marked.

Sinay Levin, one of the associate editors of the Metropolitan Magazine, writes in the Woman's Home Companion, an entertaining account of Col. Roosevelt's connection with the Metropolitan "family."

DIAMOND AND PLATINUM JEWELS

Platinum has ushered in a new Epoch in the Jeweler's Art. Because of its beauty, its permanent color, the toughness of its substance and its individualism, it rightly deserves to be the legitimate successor to the age long reign of gold.

The shortage of unusual pieces in jewels have never been so keenly felt as this year, and while our Fall display of these is larger than ever, we most earnestly urge an early selection.

INQUIRY INTO WRECK OF FLYER IS ORDERED

Railroad Officials and Citizens to Meet at Acton; Coroner Seeks Big Men for Jury; Bodies Looted?

A public inquiry into the wreck of the San Joaquin Flyer and subsequent death of five persons and the injury of 143 others ordered yesterday. One of these will be conducted by State railroad officials and the other by the Coroner.

The board of inquiry charged with fixing the responsibility for the wreck will begin its investigation at 9 o'clock Monday morning on the spot where the flyer went into the ditch Wednesday.

F. Lemp, assistant service inspector for the State Railroad Commission, who will represent his chief, W. J. Handford, and the State Railroad Commission, will be in charge of the inquiry. He will be assisted by F. M. Worthington, superintendent of the San Joaquin division, and the other division officials, who will make up the board of inquiry. The officials and two laymen from the community will complete the investigating body.

Joseph H. Dyer, general manager of the southern system of the Santa Fe, and the ranking railroad official in this territory, will also be present. Mr. Dyer wired from San Francisco last night that he would be present.

Mr. Dyer's late yesterday afternoon that nearly 100 bodies were found in the wreckage. The bodies were found in the wreckage of the flyer, which was wrecked at Acton, California, on October 28. The bodies were found in the wreckage of the flyer, which was wrecked at Acton, California, on October 28. The bodies were found in the wreckage of the flyer, which was wrecked at Acton, California, on October 28.

Three of the Victims in Acton Railroad Disaster.

Paul L. Matthews. John Groetsch. Herman Emanuel P. Force.

Among the Dead in the Railroad Wreck. The picture of Force was taken by The Times when he went as a fireman on the first Express train to leave Los Angeles after the steam railway wrecked last summer. The girl shown is believed to have been Matthews' fiancée, residing in the East. She was not on the train.

MRS. GLOYD GIVEN RIGHT TO ESTATE.

APPEAL COURT DECIDES FAVOR WILL FIGHT INVOLVING MUCH PROPERTY.

In holding that Mrs. Maretha S. Gloyd is the legal widow of Albert M. Gloyd, wealthy lumberman, whose holdings here are valued at \$500,000, and as such is entitled to her share of the estate, the status of a wife who has been divorced, where the interlocutory decree has not been entered, was decided yesterday by Department No. 1, District Court of Appeal.

Mr. Gloyd brought an action for divorce against his wife, and secured an interlocutory decree, February 27, 1918. In April of the same year Gloyd died, leaving a large estate in California and Missouri, which was willed to relatives.

Then Mrs. Gloyd, asserting herself to be the widow of the deceased, brought an action to secure her share of the estate.

In March, 1919, Gloyd's attorney asked for a final decree of divorce for his client, but it was resisted by the wife, declaring that as her husband had died the court had no jurisdiction to make the divorce final.

GABOR HEGYI HURT.

Ex-Supervisor Candidate Backs Auto Into Street Car.

Gabor Hegyi of 1725 Wilton Place, real estate operator and recent candidate for Supervisor, met with possibly fatal injuries late last night when he backed his auto into an inbound Hollywood street car at Western avenue and Hollywood boulevard.

According to Motorman A. R. Brown, Mr. Hegyi backed his machine directly before the car. The force of the collision demolished the automobile and Mr. Hegyi was thrown to the street, landing on his head.

He was rushed to the Sister Hospital, where Dr. Shoemaker found him to be suffering from severe concussion and possible skull fracture. After investigation, the Hollywood police said no blame is attached to the motorman.

PARK WORKERS LOSE APPEAL TO COUNCIL.

Municipal employees who have to work on Sunday and get some other day off in the week are being amply repaid, is the decision of the City Council. It adopted a report to this effect by the Finance Committee yesterday on the appeal of the park employees, who asked that when they are required to work on Sunday they be given a day and a half off during the week or be paid at the rate of time and a half for the Sunday.

RISE FOR P. E. CAR MEN.

A rise in the pay of all employees connected with the operation of the road was made yesterday by the Pacific Electric. The strike was declared ended and the new rates of pay were announced to go into effect tomorrow.

The new schedule of wages includes 43 cents an hour for the first year for street car service. This is an increase of 2 cents over the pay that has been given for the first three months of service. The pay for the nine following months of the year remains the same.

On interurban service the company makes no change, paying as before 2 1/2 cents more than the street car service. On certain single track lines an increase of 2 1/2 cents is made over the present rate. All men in the employ of the freight service are given a rise of 3 cents an hour. The twelve-day vacation each year and the pass privilege after five years' service are granted as heretofore.

The statement, which is signed by H. B. Titcomb, vice-president of the road, says that all service is normal and the places of the striking employees have been filled. The announcement said that the granting of two years' seniority to new men would cease tomorrow.

OFFICES OF "DUGOUT" ARE RAIDED BY GOVERNMENT

Documents of Allied World War Veterans' Head Seized on Espionage Charges; Curious Sequel.

Federal authorities, armed with a warrant of search issued out of the court of United States Commissioner Long on a complaint sworn to by Assistant United States District Attorney Lawson, last evening seized letters and memoranda at the office of the Dugout, an alleged veteran publication, issued from rooms 301-302 Mason Opera-house Building.

The editor of the publication is Sydney R. Flowers, president of the Allied World War Veterans, and its ostensible purpose is to benefit mentally, physically and financially, veterans of the great war. About a dozen issues have appeared since its establishment by Flowers, and the publication has been under suspicion as an advocate of pro-German views by the office of the United States District Attorney for some time, according to Mr. Lawson. It is a monthly, but has only appeared at intervals. A feature of the raid was the warm intercession on Flowers's behalf, made by Upton Sinclair, Socialist writer.

The complaint charges a violation of the espionage laws that are still in effect, as the war has not been officially proclaimed as closed by proclamation of President Wilson.

VIOLENCE FEARED.

The government agents disturbed no property in the office, simply carrying away the papers they desired. After the inspectors had gone, witnesses say that certain known followers of Flowers took possession of the office, tore down an American flag which was on the wall, threw it on the floor and generally wrecked the place. Then they sent for a Los Angeles Examiner photographer to make a photograph of the office in the apparent desire to have the publication of the photograph give the impression that the Federal officers had desecrated the flag and destroyed the office property.

A search was also made of Flowers's home, in the Reed apartments in Venice. Flowers himself was arrested. He is a Canadian veteran and soon after returning from the service began the publication of the Dugout, which the authorities believe is largely devoted to the dissemination of Bolshevist sentiments.

TO GERMANY.

The evidence in the hands of the government indicates that Flowers has been sending copies of his magazine to papers in various parts of Germany, with a view to having the contents of the publication reprinted in the local German papers, and thus cause dissatisfaction, revolt and revolution among the American soldiers stationed in various parts of Germany.

The mass of correspondence and letters found in the publication office will be examined by Federal agents with a view to discovering whether they contain any treasonable and pro-German views, and the future conduct of the case depends upon the character of the evidence adduced as a result of the investigation of the memoranda.

The warrant was served by Frank L. Turner and Col. Emil Kotze, who are officers of the Federal department of justice. Flowers was found in his office and demanded that officers show him the warrant upon which the raid was based. The document was read to him by Agent Turner. Flowers was very angry, and hot words followed that ended in Flowers being shut up in an adjoining room. Upton Sinclair, the Socialist writer, was in the editorial office of the Dugout, and remonstrated with the officers. He was promptly put out of the room.

ENTER UPTON SINCLAIR.

Later on Sinclair went to the Federal Building and claimed that the raid was based on a "frame-up" on the part of some of the enemies of Flowers. He said the Dugout was not a seditious sheet and that the officers were very rude when they went into the office of Flowers. He further alleged that Dis. Atty. Woolwine had passed on the pro-German character of the Dugout. He also said that this matter had been discussed by himself with Assistant United States District Attorney W. P. Fieser Palmer, and that officials saw no objection to the publication. Sinclair had nothing to say about the letters seized, but appeared anxious that nothing should get into the papers about the "unfortunate affair."

Subsequently Sinclair appeared before Deputy District Attorney Keweenaw, who is prosecuting the criminal syndicalism cases, and complained that threats had been made against Flowers and asked for an investigation. He said Flowers was called from Hollywood to come to the Federal Building and that he was met by two men as he was about to enter the elevator. These men showed badges, Sinclair said, and after five years' service are granted as heretofore.

No investigation was ordered. WARNED BEFORE.

After Flowers had his "Allied World War Veterans" under way to organization one year ago, he published the first number of "The Dugout" and there were so many pro-

tests made to the Department of Justice over the L.W.W.-Bolshevism of the cover, cartoons and reading matter that Flowers was summoned to the Federal Building. He promised to mend his editorial ways and was comparatively mild and unoffending until after the armistice was signed and prosecutions under the Espionage Act relaxed. Then the magazine came out openly for the "One Big Union" of the Industrial Workers of the World.

The October number of the Dugout is filled with articles, most of them signed by Flowers, urging "hat the working class revolt. One article intended to stir up antagonism is entitled "The American Soldier in the Trenches." It is a defense of the Bolsheviks and a defense of the Bolsheviks. It is a defense of the Bolsheviks and a defense of the Bolsheviks.

Above 100 revelers buried gloves last night at the Halloween masquerade ball held by the employees of The Times in the Times Assembly Hall. Gobs and soldiers danced with Red Cross nurses and Scotch maids. Harlequins danced with debutantes. Old hook-nosed devils drove away full cars with their walking staves, while a band of masked newbies dodged and danced the flunkies' calling out their wares. Historical characters and fairy-tale heroines were all present and a big jazz orchestra with its weird, spooky music caused Chopin to turn over in his grave.

The Times masquerade ball was only one of the monthly employee parties given by the newspaper.

WARE BROOMSTICK WITCHES TONIGHT.

Spooks and their kindred spirits will venture from their hiding places tonight for a night of revelry. It is Halloween, the one night of the year when visions of small boys running amuck cause the family flier to be chained to the garage and when all other portable objects will be firmly anchored.

Halloween will be celebrated throughout the city by thousands of pleasure seekers. Spooks and merry masqueraders will be found in most of the clubs, hotels, apartments, houses and private homes. Nor will the celebrating of Halloween be terminated tonight at midnight, for many organizations have planned to make it a week-end affair. Parties and dances and entertainments will be held tomorrow night and Saturday night as well.

Many local clubs and organizations are preparing to make this year's Halloween the most pretentious one observed in years.

The Young Women's Christian Association will hold its carnival at the association clubrooms this evening. The evening will be spent in solving the mysteries of Halloween.

The Midweek Country Club will celebrate tomorrow night. Two hundred people are expected to attend. The Los Angeles Country Club, the Arroyo Club, the San Gabriel-Brentwood Club and many other clubs have also planned to hold Halloween entertainments.

Several of the downtown hotels have been spending several days in making elaborate preparations for the occasion, decorating ballrooms and dining-rooms, and promising many unique features for the guests. Apartment-houses also have bedecked their lobbies and recreation rooms with goblins and pumpkins and have arranged for marauding entertainments.

Later Sinclair went to the Federal Building and claimed that the raid was based on a "frame-up" on the part of some of the enemies of Flowers. He said the Dugout was not a seditious sheet and that the officers were very rude when they went into the office of Flowers. He further alleged that Dis. Atty. Woolwine had passed on the pro-German character of the Dugout. He also said that this matter had been discussed by himself with Assistant United States District Attorney W. P. Fieser Palmer, and that officials saw no objection to the publication. Sinclair had nothing to say about the letters seized, but appeared anxious that nothing should get into the papers about the "unfortunate affair."

Subsequently Sinclair appeared before Deputy District Attorney Keweenaw, who is prosecuting the criminal syndicalism cases, and complained that threats had been made against Flowers and asked for an investigation. The young lady says that she can't live in the cold comfort of a man.

Decides on Campaign to Create Open-Shop Sentiment and Eliminate Ugly Union Tactics.

After a considerable discussion, the chamber directors decided that they could not compel business men to remove the objectionable signs, nor could they force business men to cash checks, but they gave the shop committees their promise that a honest effort will be made to convince business men to change their attitude. It is not assuming the right attitude toward working men who own homes, educate children, pay taxes and spend their money for their community.

MILLIONS SPENT.

"Let me call to your attention the fact that since the Los Angeles shipbuilding and Dry Dock Company has been doing business in San Pedro, it has paid more than \$25,000,000 in wages to Communist laborers," said an employee, John Bachtel. "Nearly 1000 of the men now employed there are living in San Pedro, and many of the results and abuse which are heaped

He made a strong appeal for conservatism, especially in the matter of industry, declaring that a group of men would not be so stupid as to attempt to disrupt the government and sovietize the country.

"Let me go on record as saying that organized labor is in the wrong," said Bachtel. "Organized labor will be respected by all whenever it takes efficiency for its watchword. Let it spread out and grow and fill the country with the most expert men in the country. Then it can go to a manufacturer and make its own money with him. Manufacturers know that labor will be free from loafers and that it will reach the highest pinnacle of production. Let the same time spirit prevail in an employer who exploits labor is just as big an enemy of the country as the rampant radical who would tear down the pillars of the present great society has been constructed."

Disgruntled Radicals at Labor Temple Urge Starting of Recall Petitions.

"I have done my duty as the Mayor of all the people as I have seen fit and I shall continue to do so."

FOR VACANCIES

There was no discussion at the City Board last Tuesday was to possible vacancies to Francis Drake on the State Commission, and those who are interested in the position of District Engineer to appointee will be a business.

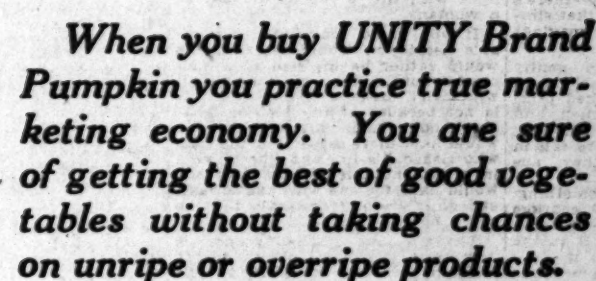

He made a strong appeal for conservatism, especially in the matter of industry, declaring that a group of "organised labor" had attempted to disrupt the government and sovietize the country.

"Let me go on record as saying that the 'organised labor' in the U.S.S.R.," he said, "Organized labor will be respected by all whenever it takes efficiency for its watchword. Let it weed out the scab and fill up the ranks with the most expert men in the country. Then it can go to a manufacturer and make its own terms with him. It will be free to demand that it will be free from loafers and that it will reach the highest pinnacle of production. At the same time it will be free to demand that it exploits labor is just as big an enemy of the country as the rampant radical who would tear down the pillars of the U.S.S.R. A great society has been constructed."

CHARGE UNFAIR RATES.
Harris Fleming, examiner of the Federal Commerce Commission, yesterday held a hearing at the Federal Building, on two cases of charging unfair freight rates. Sought by the United Verde Extension Mining Company, against the American D. Hines, Inc. and General Electric Railways. One involved charges assessed and collected on loading brick made of infusorial earth, shipped from Pomposo to Mesquite, Ariz. The other involved charges assessed on bende and fittings shipped from Philadelphia to Clarkdale. The location of the plant of the United Verde Extension Mining Company.

HOOD TO GET A MAJOR CHANCE.

Wallace Hood, after a rather short baseball career, interrupted by more than a year in the service, is to get a chance in the majors. He has been sold to the Brooklyn club, and if terms are satisfactory, will report next season.

Hood, who is a graduate of Whittier Union High School, tried out as a pitcher with the Vernon club three years ago. At the time he was advised, because of his natural fielding and hitting ability, to try either for third base or the outfield.

He did not do this at the time, but while playing with Moore Jaw in the Western Canadian League, was transformed into an outfielder. He hit for a mark of .316 and displayed such a good arm that he was bought outright by Brooklyn.

RUTH SLAMS THEM HARD.

Puts Ball into Bleachers; Getting Ready for Tomorrow's Game.

BY HARRY A. WILLIAMS.

Babe Ruth encountered his first Waterloo yesterday. Speaking to the point, the home-run monarch found himself baffled by our justly celebrated left-field and center-field fences at Washington Park.

Mr. Ruth crawled out of his leather tarpaulin, inserted himself in a freshly-launched Red Sox suit, burnished up his favorite war club, swung, puffed, perspired and grunted, but the aforementioned fences could not be encompassed.

All of which is a testimonial to the size of our baseball yard, which Babe himself announced is one of the luskiest in the country. With Jim Scott, Sam Ross and others pitching, Ruth sent the ball screaming to all parts of the lot. He scorched the sod with burning grounders, drilled long line drives into center and left center, and dove the ball into the right-field

bleachers further than it has been driven before.

STUBBORN FENCES. But the left and center-field fences, among the deepest in the country, remained unconquered. This speaks highly for our ball park, as Ruth has knocked the pill out of every lot in the American League.

When it comes to taking in territory the majors have nothing on us. Babe busted the ball so hard toward right that it landed in the thirteenth tier of seats. This seemed to jinx him, as after that his swat grew shorter. His longest smash, however, was to center, the ball landing about two feet short of the center-field fence, and in approximately the same spot where Bobby Heusel placed his now famous drive about a month ago, and which was generally conceded to be the longest ever made in this town. Heusel's

(Continued on Third Page.)

There will be no ideas of easy victory in the minds of any of the Tiger players. They know they are up against a stiff proposition and that only a terrific fight will bring home the bacon. And they will trap every inch of the way for the Tigers would rather beat U.S.C. this year than anything they can think of. Beating Yale, Harvard, the Army and Navy all put together wouldn't be nearly as much fun.

Coach Stanton has been teaching his team tricks behind closed doors this week and it is a safe bet that they have learned something. When the "Fox" kicks the public out and gets after his men in that heart-to-heart manner of his they either pick up some football or go to the hospital.

LINE-UP MUZZED. The Tiger line-up was muzzed (Continued on Second Page.)

TIGER-TROJAN STRUGGLE NEXT.

Stanton Teaches Football Behind Locked Doors.

Henderson Spends Time Bucking Overconfidence.

Long Beach-Los Angeles High Game Looks Good.

BY WARDE POWELL.

Despite all the walling and gnashing of teeth of the respective coaches, the Occidental-U.S.C. football game tomorrow gives promise of being a bear. According to dope sheets, U.S.C. should win the game decisively—but dope isn't worth a whoop in this year's football.

There is a strong chance that the Trojans will enter the battle overconfident, if they do their chances of winning are out about 25 per cent. Coach Henderson has been weeping over his team lately, but fear of overconfidence is the reason and not lack of material.

NO EASY VICTORY. There will be no ideas of easy victory in the minds of any of the Tiger players. They know they are up against a stiff proposition and that only a terrific fight will bring home the bacon. And they will trap every inch of the way for the Tigers would rather beat U.S.C. this year than anything they can think of. He did not do this at the time, but while playing with Moore Jaw in the Western Canadian League, was transformed into an outfielder. He hit for a mark of .316 and displayed such a good arm that he was bought outright by Brooklyn.

HOOD TO GET A MAJOR CHANCE.

Wallace Hood, after a rather short baseball career, interrupted by more than a year in the service, is to get a chance in the majors. He has been sold to the Brooklyn club, and if terms are satisfactory, will report next season.

Hood, who is a graduate of Whittier Union High School, tried out as a pitcher with the Vernon club three years ago. At the time he was advised, because of his natural fielding and hitting ability, to try either for third base or the outfield.

He did not do this at the time, but while playing with Moore Jaw in the Western Canadian League, was transformed into an outfielder. He hit for a mark of .316 and displayed such a good arm that he was bought outright by Brooklyn.

HOOD TO GET A MAJOR CHANCE.

Unattached" Licensed Hunters Bag More Quail and Ducks Than Ever Before This Year.

OPEN HUNTER
IS GETTING HIS.

Season this for the "Unattached" License.

EARL BAIRD TO FIGHT MAHONEY

(Continued from First Page.)

young Shahe the toughest sort of tryout.

Jack Davis and Joe Brown are scheduled to clash at 120 pounds. If Davis is as good as he is reported to be, he will be a bad evening for the local boy. It will be a real test for Brown to be sure to go down before the first round.

Bert Collins and Dick Mahoney are the biggest fellows on the coast. Collins is a rough and ready fellow while Mahoney is a smooth operator. They are both of the same breed, the same kind of a fighter.

While the card from the main event is not yet out, it is believed that there will be a real test for the local boy. It will be a real test for Brown to be sure to go down before the first round.

Quail and Ducks Falling in Numbers.

Satisfaction Ruling Over the Quail Season.

Quail and ducks are being bagged in the few "unattached" hunters this season. In several years past, the first weeks of the open period have brought decidedly satisfactory results in the vast majority of men. Without an abundance of quail, the season would not be a success. The quail is the mainstay of the hunter.

While the season is not yet over, the quail is falling in numbers. The ducks are also falling in numbers. The hunters are not yet in luck.

BOWLING NOTES.

Monday evening saw the initial performances in the Mercantile League. A few of the old-timers had hard work locating the pins, as the following scores will show. Nothing very remarkable happened except Johnny Graycheck's high average of 192.

Result at the Broadway alley:

Player	1	2	3	4	5	6	7	8	9	Total	Avg.
Graycheck	10	10	10	10	10	10	10	10	10	90	192
...

RUTH SLAMS THEM HARD.

(Continued from First Page.)

blow was a towering fly, while Ruth's was more of a line drive. Ruth was not at his best. Three things humiliated him. He had not looked a baseball in the face for three weeks. For another thing, he appeared to be over-armed, and he also was the target for a Grafix group, which decided to put a hoodoo on an athlete. Also, there was a stiff breeze blowing from the southwest, or, directly against most of his hits. It was what Babe described as a "heavy" breeze, blowing the ball in that direction, which he will indulge in today, in condition in preparation for the games tomorrow and Sunday.

MIKE KELLEY MAY HANDLE SEATTLE.

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, Oct. 30.—Tentative arrangements for Mike Kelley, manager of the St. Paul team of the American Association, to assume a like position with the Seattle club of the Pacific Coast League next year, have been made. It was announced here today by William B. Klepper, owner of the Seattle club. Kelley and Kelley left here today for Seattle, where, it is said, final arrangements will be made.

HORSE RACING POPULAR AGAIN.

(Continued from First Page.)

door sport, and which will be the medium of drawing thousands of visitors here in the next month or so to escape the rigors of the eastern winter.

George Beigel, the enterprising automobile dealer, recently conceived the idea of reviving the greatest of all outdoor sports in Southern California. Racing was given in conjunction with the big stampede. From the very moment the Asot Park gates were opened until they were closed three days later, it was patent to the most superficial observer that the vast crowds present were almost exclusively interested in the flying hangers.

MEUSEL BREAKS RUTH'S BAT.

Speak it softly in Rawston, and whisper it gently around the American League circuit.

One of Babe Ruth's bats has been broken, not by the batting team, but by a mere bush.

When Ruth was pitching yesterday, Bobby Meusel ambled up to take his turn at the plate. With boyish curiosity, Bobby picked out one of Ruth's two bats. He wanted to grasp the handle about which such famous hands had been folded.

CHANGES SLIM.

Personally, we do not think that Babe's chances of being the left fielder of the catcher-fence are very far. While he can probably hit the ball far enough to accomplish his purpose in right center, he is a left-handed batter, and naturally his heavy drives, or at least a great majority of them, are to right or right center.

CHANGES SLIM.

FLASHES.

GERTRUDE SELBY WEDS.
 COMEDienne MARRIES NEW
 YORK MAN.

By Grace Kingsley.
 One by one our favorite comedienne is being ensnared by Cupid. Now it's Gertrude Selby, Sunshin comedienne, who has married, the man of her choice being Townsend Nether, a New York man. The two were wed on Wednesday at the Little Church Around the Corner, in Gotham, according to no less an authority than Mabel Normand, who saw the ceremony performed, and who kindly let me know about it. Miss Normand vouches, with telegraphic terseness, for the fact that it is all "really wonderful, but very happy."

Quite a romance preceded the marriage. Miss Selby having met Mr. Nether while on a trip to New York undertaken in the interests of cinema art. She is one of the loveliest of the young comedienne of the screen and was formerly with Universal. Whether Miss Selby will continue her screen work cannot be known at night, but in any case, it is understood, she will reside in New York.

Judge Brown Busy.
 That indefatigable uplifter, Judge Willis Brown, author and producer of the delightful film "Surprised Carliotta," which stars Ruth Hampton at the Alhambra this week has just completed another scene, which he expects to put into work within a fortnight. He expects to take over space at the old West studio on Lillian way, in Hollywood.

Judge Brown, who is the author of twenty-two real pictures on boy life recently released by the World, states that his forthcoming picture will not deal with boy life, but will branch out on a story dealing with a big economic problem. It will be treated humanely and entirely from the dramatic standpoint, however, so that if there is any medicine it will be entirely sugar.

Starred in the cast will be Miss Hampton, who is scoring such a big hit in "Surprised Carliotta." Miss Hampton will have playing opposite her William Wickes, who made a most favorable impression in the lead in "Danny Asks Why," another of Judge Brown's pictures. Other members of the cast will shortly be engaged.

An amusing story in connection with "Surprised Carliotta" came to light the other day, when the youth who plays the Italian boy in the picture accompanied his father and mother to the Alhambra. It seems neither of the boy's parents knew he had taken part in the picture until they saw him on the screen. The irony of it is, both parents at diverse times had commanded their son never to work in pictures, yet his mother is a member of the National Better Film Organization, which sponsors Judge Brown's pictures. Naturally, they exclaimed aloud when their son appeared on the screen, but they couldn't consistently punish him, since they are upholding the film, so it looks as if he might be expected to go right on playing the Italian boy in his career, especially as he is a very good-looking young man, with every evidence of talent.

Una Fleming Heard From.
 A very nice letter from Una Fleming, dated from New York, informs me that not only has she made a striking success in "The Velvet Lady," but she is all thrilled at present, doing very well. This summer I had the loveliest engagement in vaudeville, with Charles King. We played the Palace several times, and it was the best time I had a long hard pull in New York, and that's why I appreciate everything so. I am studying voice, and like musical comedy work so much. "Some day soon I hope to return to Los Angeles and visit with everyone who has always been so nice to me."

Frank Herbert Writes.
 The matinee girls, who doubtless all remember Frank Herbert, the Morosco juvenile, who left his stage work to go into the picture business, writes Miss Fleming, "My future looks bright for this season with Mr. Eriker, although it is a little doubtful before I return to New York. As I am engaged in playing 'The Velvet Lady' in Chicago at present, I am not sure of my return. This summer I had the loveliest engagement in vaudeville, with Charles King. We played the Palace several times, and it was the best time I had a long hard pull in New York, and that's why I appreciate everything so. I am studying voice, and like musical comedy work so much. "Some day soon I hope to return to Los Angeles and visit with everyone who has always been so nice to me."

Barrie and Pincro Films.
 Well, the greatest of em sonner or later come to it. The latest big news from Famous Players-Lasky is to the effect that Sir James Barrie and Sir Arthur Wing Pinero have fallen for the deathless drama and have sold their rights to all their plays to that organization. But that's not the thrilling part of it. The most exciting fact is that Sir James Barrie and Sir Arthur Pinero are to come to this country in the near future to oversee the production of their plays to the screen and likewise to witness their premieres. So at last the screen is to have "Peter Pan" and "The Boy Who Dined with the King" and others.

PLAYS :: HEROINES :: OF :: WEST.

Gloria Hope.

story-books, games and even a tiny photograph. Miss Dana asked what the idea was. "If you're young enough to have the measles, you're young enough to play with dolls," they told her. But she was not to be deterred. Miss Dana is going to send them to the Orphan's Home.

Harlan Engaged.
 Kenneth Harlan has been engaged to play the role of "Captain Donald Keap" in Rex Beach's story, "Going Some."

Allan Dwan Scores.
 From present indications and reports, the Mayflower PhotoPlay Corporation will gather in their full share of the laurels which are to be distributed during the coming screen season. The success of "The Miracle Man," which was the first production of the company, has been a triumph. It was sold to the United States, and is now a matter of photo-play history. The second picture to be presented by this organization will be "Soldiers of Fortune," produced by Allan Dwan a short time ago.

Pauline Frederick Returns.
 Pauline Frederick is back in Los Angeles and has started work on a "Minion of the United States," after a vacation of nearly a month, spent in New York. "My, but I'm glad to be back here," she exclaimed as she stepped from the Santa Fe train. "It was cold and nasty back there, and here it is so lovely—I want to go right out home and see how my garden is."

Jack Pickford Has Home.
 Jack Pickford has at last found a cozy home in the Hollywood district. He moved in, purchasing the house outright. He had been in search of a place for the past month, and it was not until this week that the young star found the abode that suited his desires. It is a handsome Colonial bungalow situated on a rising ground, and in command of a view that is not to be eclipsed by anything in the vicinity. It is expected that Jack's wife, Olive Thomas, will be here soon.

Herbert Hayes Found Papa.
 Herbert Hayes, leading man for Ruth Roland in the Ruth Film Production, is a happy man these days. His wife has just produced a healthy baby, a four-pound boy, born at the family residence in this city last Monday. Father, mother and child all doing well.

Rothapel Signs Timmer.
 The first act of Samuel Rothapel as presentation manager of the California Theater, yesterday was the signing of Christian Timmer as concertmaster for the theater orchestra, under Carl D. Ellor.

BRIEFS.

THOSE POPULAR EYES.

WILL GLIMMER FROM SCREEN THIS PRESENTATION.
 By Edwin Schallert.
 For the third time this year, each occasion having been under distinctly different auspices, "The Eyes of Youth" will be presented in this city beginning Sunday afternoon. It is the film version that is demonstrated this time, the Morocco Theater Company gave the play in its stage version, with Eleanor Woodruff in the principal role, and Marjorie Rameau, who created the star part in the original drama, presented it here in Clune's Auditorium. Such a sequence has seldom been duplicated in local theatrical history. It is on a par with that time when Molnar's "The Devil" ran at two theaters at one and the same time.

Hip Play Bill.
 The film feature of the Hippodrome programme for the latter part of the week is "Some Liar," in which William Russell is starred. The hero is a salesman of coffin and cradles in a western town, who stirs up a lot of trouble for himself by missing deliveries. The vaudeville acts on the bill include Tommie's Exposition Band of twenty pieces; a comedy sketch, "Where's My Hat?" the Aerial Ballets; Robb and Murphy, Harold Perkins, William Reis, Fisher Joy, Raymond Jarecki and Paul Orban. A pleasing performance of the play will be given Saturday night.

Present "The Rivals."
 The success of the community theater idea in Pasadena was again demonstrated Monday evening by the large attendance at the opening performance of "The Rivals," which was given by the players of the Pasadena City community theater, under the direction of Gilmor Brown. This is the second offering of this group of players.

Feature of the performance was the newly introduced in handling changes of scenes—said changes being indicated only by a variation of furniture, properties and back drops. Rare period furnishings loaned by patron of the playhouse gave a richness to the settings, and the costumes were picturesque.

The principal roles were in the hands of Mrs. A. H. Palmer, as Mrs. Malaprop; Mr. Brown as Sir Anthony Absolute, and Misses Alberta Jones, Gloria Sterling, Virginia Timmerlake, Edward Murphy, Harold Perkins, William Reis, Fisher Joy, Raymond Jarecki and Paul Orban. A pleasing performance of the play will be given Saturday night.

Princess and "Bee" Fly.
 The Princess Tatiana and "Len" Beymer, yesterday took a "hop" from the face Aviation Field, flying over the land immediately surrounding the field, and then over the ocean. They were over a number of spins and dives through the air. Charles Waterfield Cadman, with whom the Indian stranger is to appear in concert tomorrow afternoon at Trinity Auditorium, had hoped to accompany her, but was unable to do so.

Marie Tiffany to Sing.
 It is definitely announced by the Rehymer management that Marie Tiffany will sing with the Philharmonic Orchestra Sunday afternoon at the popular concert at Trinity Auditorium. Her return to Los Angeles for a few hours last Monday, and almost immediate departure for engagements in the South led to the belief that she would not be with the Philharmonic, but the Music Committee yesterday received word stating she would be here Sunday morning.

Her Shadow Double.
 To have the same names and yet be playing diametrically opposed roles in the same picture is the experience of Dorothy and Carmen Phillips in "Paid in Advance." The Allen Holubar melodrama of the Yukon, which is starting a second week at the Superba on Sunday. Dorothy Phillips, the star, is seen as Joan, the angel of the Yukon, who is known on her own resources in one of the most notorious camps of the frozen north. Carmen is seen as "Seattle Kate," denizen of "Gold Dust" Barker's dance hall. Dorothy Phillips broke into the theatrical world through the stock company route, making her first appearance in Baltimore, her own home town.

That Soda Contest.
 A soda-drinking contest staged by Cullen Landis of the "Girl From Outside" cast at Tally's Kinema this week came dangerously near resulting in a catastrophe. Landis and the four others playing the Wag boys in the production put up \$5

RIVERSIDE TAKES SLAP AT UNIONS.

(LOCAL CORRESPONDENCE)
 RIVERSIDE, Oct. 30.—A resolution of the Los Angeles Chamber of Commerce, expressing disapproval of the unionizing of policemen and firemen, was introduced at a meeting of the directors of the local chamber last night. The action was taken upon the initiative of Superior Court Judge Hugh H. Craig.

each one day on location, the pool going to the one drinking the biggest number of ice cream sodas. The "Curly Kid" won the \$25, but Director Reginald Barker put down \$250 as a time expense item, for the studio doctor worked over two hours bringing Landis back to earth.

LABEL "LIQUOR" CAR.
 Sahara-like conditions in the United States are stimulating the amusement of whiskey across the Mexican border, it seems. Yesterday Assistant United States Dist. Atty. Bryan filed a libel involving twenty-four pints of whiskey and the Dodge automobile in which it was said to have been carried into Calexico by Juan Rodriguez. The machine is claimed as the property of Miguel Rios, a local restaurateur. The arrest of Rodriguez, who was driving the machine, was made by Customs Inspector Bowman.

TO GIVE BIBLE LECTURE.
 The Rev. Dr. A. C. Dixon, formerly of the Spurgeon Tabernacle in London, will speak again tonight at the Bible Institute in South Hope street. He is giving the series of lectures on the first five books of the Bible.

Only a Race.
 Speaking of race riots, remarks the Manitoba Free Press, a colored friend of ours says: "If any white man ever comes after me with a gun, there'll be a race, but no riot."

THE QUEEN'S ENGLISH.
 The Queen's English is better than the King's. She speaks with a but delightful accent, and is at a loss for the precise word. She was on occasion asked to brief visit in San Francisco. She did not understand. That was the luncheon tendered her at the Francis. The uncomfortable moment had come when the English photographer was to interview her. She gathered. That individual, perched at the top of a tall ladder, whistled to attract the general attention. He got it, and raised his hand. It was apparent that he had something to say. At the same time, she was looking up while I shoot this picture."

ELECTION FAILS TO ATTRACT ATTENTION.

FEW CANDIDATES PRESENT THEMSELVES AT RIVERSIDE.

(LOCAL CORRESPONDENCE)
 RIVERSIDE, Oct. 30.—The election was the last day for filing petitions for the city election, which occurs on November 12. Petitions left with the city clerk close the fact that the contest for the Mayoralty will be confined to two candidates, Mayor Horace Evans. No opposition was developed to the incumbency of city clerk and the city auditor, two members of the Common Council. City Treasurer H. N. Doster, opposed by E. J. Kierland, who has seven candidates will contest three places to be filled on the board of Education. Former Mayor Evans, prominent in club circles, was placed in nomination for the school board by the largest petition ever filed for an office in the city's history. Marie S. Brown, who has been on the board for two years, is the only other woman candidate. Her name will appear on the ballot.

ELECTION FAILS TO ATTRACT ATTENTION.
FEW CANDIDATES PRESENT THEMSELVES AT RIVERVIEW.
[LOCAL CORRESPONDENCE]
RIVERVIEW, Oct. 30.—Yesterday was the last day for filing nominating petitions for the city election, which occurs on November 18. Petitions left with the city clerk disclose the fact that the contest for the Mayorship will be confined to two candidates, Mayor Horace Porter and former District Attorney Leoman Evans. No opposition developed to the incumbency of the city clerk and the city auditor and two members of the Common Council. City Treasurer H. N. Dunbar is opposed by E. B. Kitchin, while seven candidates will contest for the three places to be filled on the Board of Education. Mrs. Florence B. Batchelor, prominent in women's club circles, was placed in nomination for the school board by the largest petition ever filed for such an office in the city's history. Mrs. Marie S. Brown, who has served on the board for four years, is the only other woman candidate whose name will appear on the ballot.

THE QUEEN'S ENGLISH.
The Queen's English is better than the King's. She speaks with a slight but delightful accent, and is never at a loss for the precise word. There was only one occasion during her recent visit to San Francisco when she did not understand. That was during the luncheon tendered her at the St. Francis. The uncomfortable moment came when the flashlight photographer was to immortalize the smiling monarch. She was asked to turn her head toward the camera. "Will Your Majesty please stand up while I shoot this picture?" The latter phrase was too much for the Queen's comprehension. She was photographed sitting down. (Clubbman in Oakland Enquirer.)

Coulter Dry Goods Co.
Founded in 1878.
Seventh Street at Olive

A Month-End Sale of Suits at \$45

These suits really deserve to be called good values; shown in navy, brown,
Pekin and Copen velours, they are styles best suited for misses and women who
wear the smaller sizes.

Flare models and the straight-line silhouette effects in these smart Autumn
suits.

Suits and Dresses at \$49.50 Values Here \$65.00 and \$75.00

With every other woman in Los Angeles in search of a real value in suits or
dresses, this sale should prove extremely timely!

The Suits—in wool velours, mostly in browns, navy, henna; Silvertones in
wine and Copen; some also in Tinseltone and stripes.

Many of them are comparable with the very best \$65 and \$75 suits obtain-
able.

The Dresses—in satins, are for the most part in black; although there are a
few Georgettes in navy, taupe and some of the lighter shades—beaded and oth-
erwise adorned, and worth much more than the price asked for Friday.

Handsome Afternoon Dresses \$69.50

These lovely affairs in the best Georgettes, handsomely beaded and shown in
shades of navy, taupe and brown; together with a number of satin dresses in black.

No more asked-for materials are to be had than Georgette and satin; here is an
opportunity that ought to be spelled in capitals.

DID ACCIDENT MAKE HIM EVIL?

Aviator-Forger's Defense
Puzzle for Court.

Alchemist is Called to Aid in
Loss of Memory Plea.

Probation Petition is Taken
Under Advisement.

Because of testimony given yester-
day by Dr. Ross Moore, an alch-
emist, at the hearing on probation of
George T. Murphy, former aviator
Lieutenant, who pleaded guilty to a
charge of forgery, Judge Craig was
confronted with the following ques-
tioning:

Did Murphy suffer from amnesia
or loss of memory, at the time he
admits forging the name of Paul
Huntabarger, a fellow student-officer
at Berkeley and March Field, and
checks aggregating over \$3000?

And, if he was suffering from
amnesia, at that time, should he be
held responsible in his normal men-
tal state for acts he committed while
in his alternating personality?

TELLS OF LAPSES.
Murphy claims that while an aviator
at Selfridge Field, Mich., he
had an accident in an airplane
which resulted in a condition caus-
ing intermittent loss of memory.
According to Dr. Moore, he says
the specialist he had two distinct
periods of amnesia, once at Berke-
ley and another at March Field.
On another occasion, he says,
during January and February, he
lost his senses a few days later at
Sacramento, whereupon he took a
train home. On another occasion,
during January and February, he
when he admits cashing the forged
checks, he says he had a period of
loss of memory.

Questioned by H. G. Golder, the
defendant's attorney, Dr. Moore said
that, judging from his examination
of Murphy he did not consider the
man suffering from mental absten-
tion, but, judging from his medical
history, as given by the defendant
himself, he might be subject to
amnesia.

HIS OTHER SILE.
Upon being interrogated by Depu-
ty Dist. Atty. Fricke, the witness
said there were many cases of "Dr.
Jekyll and Mr. Hyde," or alterna-
ting personality. He also held that
a man should not be held responsi-
ble in his normal state for acts of
his other self. The prosecutor, in
court asked regarding other cases of
dishonesty, such as the taking of a
number of medals belonging to an
American son, named Putnam, and
the witness said this might indicate
amnesia, as well, providing the de-
fendant was telling the truth.

Mr. Fricke pointed out that after
the defendant claimed a loss of
memory during the period of the
forgery, he admitted the offense
and that the question was not one
of dual personality, but whether the
defendant was capable of knowing
the right and wrong of his acts.

In order that the defendant's
counsel might obtain evidence re-
garding periods of amnesia, the
court continued the hearing until
November 5. Murphy has applied
for probation.

MAPS APPROVED.

Two Assessment Districts Formed.
Contract Authorized.

Property owners on Seventieth
and Seventy-first streets from Vi-
ctoria street to a point 650 feet west
of Moneta avenue, are to put the
sewers into this district for the im-
provement of the sewerage system.
The City Council yesterday. The
Council adopted the assessment dis-
trict map for the improvement of the
sewerage system, from Main street
to Grand avenue, and the assessment
district map for the improvement of
Norton avenue, between Third street
and Wilshire boulevard.

The City Attorney was asked to
advise if sewer revenue bonds could
be used in the construction of a
sewer on Terminal Island on city-
owned land held under lease by pri-
vate persons.

FACES COURT AGAIN.

Fourth Appearance for Girl on Ju-
venile Violation Charge.

Facing a court for the fourth time
Mrs. Frances Martin, accused of vi-
olating her probation on juvenile
charges, will appear before Judge
Williams today and try to obtain her
liberty. She was arrested recently
after jumping out of a second-story
window of a Chinese place.

Mrs. Martin was once sent to a
State institution for cure of a drug
habit. She says she was visiting
the Chinese, to borrow money. She
was friendly to her husband, now
serving a term in San Quentin.

AIDS REFORESTRATION.

City Grants Permit for Taking Seeds
in Griffith Park.

The Park Commission was given
authority by the City Council yester-
day to permit the United States
Forestry Bureau to gather seeds of
native trees and shrubbery in Griffith
Park for the reforestation of
burned areas in the Angeles Forest
Reserve. Recently, the bureau has
mission in making application to the
Council for this authority, stated that
it also proposes to turn over to the
forestry department all surplus na-
tive trees and shrubs maintained in
the park nursery.

POWELL FUNERAL.

Funeral services for Mrs. Ada E.
Powell, wife of City Treasurer John
E. Powell, were held yesterday after-
noon in the chapel of Pierce Bros.
& Co., 810 South Flower street.
Representatives of the City Council
and the civic board attended. Rev.
Evans of St. John's Episcopal
Church read the service. Burial will
be at Santa Barbara.

HELD ON AUTO CHARGE.

Accused of selling a mortgaged
automobile, without the consent of
Lasker Brothers, the mortgagees,
Lawrence Fisher was held to answer
yesterday by Justice Hinshaw. Tes-
timony showed the car was sold to
A. M. Silver.

DAILY TRADE TALK.

Prosperity, High Prices to Continue? Oils Dominate the Market.

BY CHAPIN HALL.

That the financial advertising columns in a newspaper of recognized standing in any large city are the best and truest guide to general business conditions is the contention of Mr. T. O. Bunch, a well-known Chicago attorney, general counsel for the DuSable Company, and a trained observer of the country's financial trend. Mr. Bunch is spending a few days in Los Angeles after giving the northern coast cities the up and down, and I caught him for a moment yesterday meditatively comparing the unfilled sky line of Los Angeles from the company offices in the Van Nuys Building, with the substance which passes for atmosphere over the busy loop of his home town.

The Chicagoan claims that by a careful study and analysis of these pages it is possible to accurately out a business horoscope. When more stock issues are offered in one day than were formerly brought forward in a week or more, and when this financing is almost wholly for expansion and development purposes by firms which were in successful operation long before the war, it is his theory that the country is not headed for an early collapse, and this advertising condition is just what he has been finding for the greater part of the year throughout the country.

"The law of supply and demand has never been successfully superseded," said Mr. Bunch, "and so long as the demand for goods exceeds the supply we will have a continuance of high price conditions and acceptance on the part of the public in paying what is necessary to secure the goods it desires. As a higher plane, we have the money to pay for them."

"Sooner or later there will be a readjustment. A deflation of currency and a return to what we call normal conditions, although as a matter of fact we will find that normal conditions do not mean pre-war conditions, because our present normal life is not the normal life of those days. We are living upon a higher plane, and we are not satisfied with what satisfied us then, and the new normal will be a more expensive normal. A year ago we would not have seen artists, carpenters, plumbers, bricklayers, finishers, etc., driving their work in automobiles, but that is what you will find in front of any one of the hundreds of new buildings I have seen under construction during the course of drives about the city."

"I have recently talked with men whose ears are close to the industrial ground, and it is their opinion, as it is mine, that it will take at least three years even if labor conditions are reasonably steady, to make up and restore our production to a so-called normal basis. Until that time we may expect to pay high prices, but if earning capacity has advanced proportionately then the situation in automobiles, but that is what you will find in front of any one of the hundreds of new buildings I have seen under construction during the course of drives about the city."

"I suggested that the proportion of such increases was unequal, but the visitor said he thought the trouble was rather with the distribution. 'Any merchant will tell you,' he said, 'that the people who are buying the expensive goods and paying cash for them are the people who formerly knew nothing about the market. The great difficulty all over the country is in securing sufficient merchandise; so you see we are in a circle and come directly back to the starting point, which is adequate production to meet the requirements of the trade. Everything else is incidental.'"

The visitor said that he found conditions on the Coast in sympathy with the rest of the country. Business is good everywhere. There is no reason to anticipate any change in this happy circumstance at least for a term of years. There must be, necessarily, some financial readjustment, and he more than half anticipates another government loan to meet the deficit which is piling up. The income tax for the year, he thinks, may not yield as large a return as the last year, but that, after all, is a matter of detail, and will have no material effect upon general business.

He is particularly interested in the extension to Coast cities of the chain of stores of the Metropolitan Company, the financing of which has been underwritten by the DuSable Company, and he looks for great success to follow the enterprise. The corporation, which already operates a chain of 150 stores through the East and Middle West, has had some difficulty in securing desirable sites in the Far Western cities, due to the iron rule of Gen. Prosperity, but gradually these are being acquired and within a few months the first of the Coast establishments will be opened in Los Angeles.

The \$20,000,000 issue of preferred stock is selling rapidly and according to reports from the local office
